| Sponsorship System Management – how it works

As a registered sponsor, you have access to a portal called the Sponsorship Management System (SMS) to report any relevant information required by the Home Office for the duration of your sponsorship.

Once the Home Office endorses an organisation as 'registered sponsor', there is an expectation that the sponsor will be aware of and comply with all duties associated with sponsorship. For example, if a sponsor is involved in a merger or takeover, the changes must be reported to Home Office within 20 working days. Similarly, where migrants are affected by a merger, TUPE or other provisions, changes must be reported within 10 working days.

It can be an arduous task, keeping up with the latest guidance from the Home Office particularly as guidance documents are changed at an alarming rate.

| How FSP can help

FSP can take on the administration of your licence, registering as a level 1 user and representative on the SMS. We can access your system to inform the Home Office of any changes to your organisation or to your individual sponsored migrants.

FSP can be granted priority access which takes around 5 working days (as opposed to 18 weeks standard service). Once registered as a level 1 user, we will report any 'changes in circumstances' for your migrant workers and your organisation.

We will also advise you on timing to renew your allocation of certificates, request in year certificates, assign certificates to migrant worker, renew or add new tiers to your licence.

Our package of administration will extend to recording all sponsored migrant workers, together with their visa expiry dates in our calendars. We will send reminders at agreed intervals ahead of their visa expiry dates, so that their renewals are submitted in plenty of time. This alleviates time constraints from HR personnel in your organisation who manage this aspect of compliance.
